EDUCATION

Bachelor of Engineering (Computer Engineering), D.Y. Patil College Of Engineering - 8.6 CGPA   2021 - 2025

SKILLS

Programming & DB   Java, MYSQL, JavaScript, Linux,
Dev & Tech   HTML5, CSS3, ReactJs, Tailwind CSS, MongoDB, Selenium, ThreeJs, ChromeAPI
Tools   Figma, Framer, Blender 3D, Adobe Illustrator, Photoshop, Canva,Git

PROFESSIONAL EXPERIENCE

Front-End Design Intern   Jan 2024 - Apr 2024
Atomic House   *Mumbai, Remote*

- Performed **UI/UX research**, identified user pain points, and enhanced **newboard.io SaaS app** with **seamless transitions and animations**, improving overall **user experience**.
- Contribute in the **company website redesign**, optimizing the **newboard.io app landing page** for better engagement, responsiveness, and a seamless user journey.
- Designed **reusable UI components**, reduced **redundant states**, and improved **overall performance, scalability, and maintainability** of the front-end.

PROJECTS

Connect.io: LinkedIn Automation

- Designed and developed an automation tool using **Python** and **Selenium** to streamline LinkedIn tasks, including sending connection requests, expanding network reach, and personalizing invitation messages.
- Automated daily LinkedIn workflows, **reducing manual effort by 90%** and **improving connection efficiency and response rates.**
- Engineered **robust error-handling mechanisms** and logging systems to ensure reliable performance and monitor automation tasks.

Yoom: Video chat app ([Github: Yoom](#)) - ReactJS, Figma, StreamAPI, Shadcn UI, Clerk Auth, NodeJS

- Developed a video chat application with a cross-platform optimized design using Tailwind CSS, seamlessly integrating UI libraries to enhance responsiveness and user experience.
- Enabled features to view recorded meetings and implemented secure real-time communication functionality for improved collaboration and accessibility..

SecureSwap : P2P Escrow & Transaction Platform ([Site link](#)) - HTML, JS, TailwindCSS, Firebase, RazorpayAPI

- **Trust-First Payments Workflow** – Built a dual-confirmation Razorpay escrow that releases funds only when both parties approve, eliminating almost all failed or fraudulent deals.
- **Full-Stack Delivery** – Shipped landing, auth, dashboard and deal wizard (JS/Tailwind/firebase) with UPI-QR payments and webhook-based status handling.
- **Responsive Cross-Platform UI** – Implemented dynamic CSS rendering (Tailwind + CSS variables) for seamless mobile-to-desktop experience.

SnapNote (chrome-extension): Snap. Suggest. Send ([Github](#)) - chromeAPI, JS, TailwindCSS, GenAI

- **Developed** an AI-driven Chrome extension with llm for smart crop-selection and full-page summarization.
- **Built a seamless UX featuring persistent light/dark modes, secure sync API-key storage, and one-click copy.**
- **Eradicated FOUC by preloading Tailwind in options.html and sandboxing the UI in Shadow DOM for instant, glitch-free rendering.**

CERTIFICATIONS

User Experience Design, Google **([Certificate](#))**   June 2024
Front End Development, Udemy **([Certificate](#))**   Mar 2023

Bootstrap & React, Udemy **([Certificate](#))**   Mar 2024

ACHIEVEMENTS

Vice Chair PRADNYAN ACM STUDENT CHAPTER (D.Y. Patil College Of Engineering)   2023 - 2024
Creative Lead Advait Tech Feast (D.Y. Patil College Of Engineering)
Aerovate Smart PUC(Runner up) PGMT National level innovative solution challenge   2024 - 2025
Creative Lead @POSTMAN Community Pune
UI/UX and Frontend Freelancer - Designed 4 product - one of it kind
